# Safety Information

## About Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting farther from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

**Other Important Health and Safety Information** The Xbox Instruction Manual contains important health and safety information that you should read and understand before using this software.

## Avoid Damage to Your Television

**Do not use with certain televisions.** Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of gameplay may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be played safely on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played safely on your set.

# Your Mission

Welcome.

The global arena is rife with conflict. Underground terrorist organizations willing to risk their lives for political change are at war with national and international peacekeeping organizations in dozens of hot spots around the world.

Choose to defend the innocent as a counter-terrorist or wreak havoc as a terrorist. Read on to get the knowledge you need to be effective in the field.

Get ready to move out. Your team needs you.

## Lock and Load

First, identify yourself. Create a player profile. Once you create a profile, you can access the Main Menu.

From the Main Menu, choose Training to learn how to play *Counter-Strike™*. Play a single-player game of *Counter-Strike* with computer-controlled players (bots), or play a multiplayer game of *Counter-Strike* with your friends over Xbox Live™ or System Link. Choose options to adjust your controller scheme, audio, and online settings. You can also select a different player profile or create a new one.

*Counter-Strike* automatically signs in to Xbox Live with your last gamertag (account name) at the game's start. Turn auto sign-in on or off from the Xbox Dashboard. To use auto sign-in, your account must not have a pass code.

## Training

Training familiarizes you with being a terrorist or counter-terrorist, including tutorials on weapons purchase, hostage rescue, and bomb placement and defusing. Some additional tips follow.

### Crouch Jump

# Single Player

Play a single-player match to jump right into a battle with computer-controlled opponents and teammates.

## TO START A SINGLE-PLAYER MATCH

1. From the Main Menu, select **Single Player**.
2. To play a match with preset rules, select **Beginner**, **Standard**, or **Professional**. Press **△** to select a map.  
—or—  
To play a custom match, select **Custom**, set your match options, and then press **△** to select a map.
3. Press **△** to begin the match.

# Battle Operations

When you begin a *Counter-Strike* match, you first select whether to join the counter-terrorist or terrorist team. You can also choose to be automatically assigned to a team or to watch the game rather than playing (see page 10).

## Rounds

A *Counter-Strike* match is made up of timed rounds. The number of rounds is set by the game host. Each round represents a single attempt by terrorists and counter-terrorists to fulfill their objectives. One team usually emerges from a round with a victory. The team with the most round victories at the match's end wins the match.

Terrorists and counter-terrorists start a round at different insertion points and get freeze time to safely buy weapons and equipment for the upcoming battle. Once freeze time is up, players begin combat.

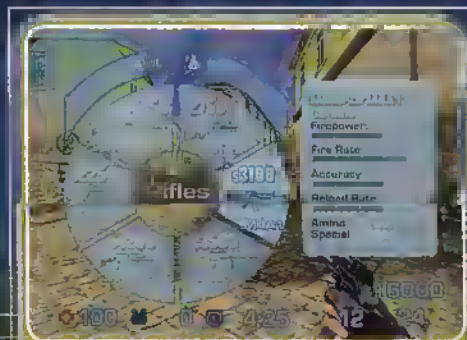

## Buy Menu

The Buy Menu appears at each round's start. From it, you can buy primary weapons (rifles, heavy, and SMGs), pistols, and equipment, such as Kevlar armor. Each player starts with some cash to buy items and earns more by achieving objectives (see the back cover). To choose an item, move your left thumbstick to it and press **△**.

When you select a weapon on the Buy Menu, a chart shows how that weapon compares to others in firepower, rate of fire, accuracy, and reload speed. On this chart, the first number listed for Ammo shows how much the weapon's ammo clip holds and the second shows how much ammo you can have in reserve. Under Special, you'll find capabilities used by pressing the alternate fire button.

Buy primary weapon ammo by pulling the right trigger repeatedly, and pistol ammo by pulling the left trigger repeatedly. To close the Buy Menu, press **Ⓢ**. To reopen it, stand in a buy zone and click the left thumbstick.

Be aware—the game's host sets a limited time period to buy gear. You cannot buy items after this time has passed.

## Spectator Mode

If you are killed, you enter spectator mode, where you can observe the fight from different players' perspectives. Switch which player you watch by pressing ; switch between first-person and third-person view by pressing . In third-person view, you can move the camera with the right thumbstick.

## Scenarios

In *Counter-Strike*, you participate in two types of scenarios: hostage-rescue and demolition.

### Hostage-Rescue

In hostage-rescue scenarios, the terrorist team has taken a group of civilians hostage.

- Counter-terrorists succeed by bringing all living hostages to the rescue zone or eliminating all of the terrorists.
- Terrorists succeed by preventing the hostage rescue or eliminating all of the counter-terrorists.

As a counter-terrorist, you see hostages on your radar as blinking dots. Order hostages to follow you by approaching them and pressing . Lead hostages to the hostage-rescue zone, which is marked and shows a rescue icon on your HUD when you reach it.

Be aware—hostages are worth money. Counter-terrorists gain money for contacting and extracting hostages, and both sides lose money for injuring or killing hostages.

### Demolition

In demolition scenarios, the terrorist team must infiltrate a secure location with a high-powered bomb and detonate it.

- Counter-terrorists succeed by defusing the bomb once it has been planted, preventing the terrorists from detonating the bomb until time runs out, or eliminating all of the terrorists before the bomb is planted.
- Terrorists succeed by planting the bomb at a bomb site and preventing the counter-terrorists from defusing it before it explodes, or eliminating all of the counter-terrorists.

Each round, one of the terrorist team is randomly chosen to carry the bomb. That person has a bomb icon on the HUD. Teammates see the bomb as a red dot on their radar, which blinks if the bomb is dropped. If you are at a bomb site with the bomb, plant the bomb by pressing and holding . The bomb detonates after a delay. Evacuate before it does—the blast radius is large.

As a counter-terrorist, you must defuse the bomb if you find it has been planted. Do this by pressing and holding  while you are near and looking down at the bomb. A bomb-defuse kit speeds the process (see page 30).

# Multiplayer Games

If you're ready to challenge your friends, *Counter-Strike* provides two ways to get the battle started: System Link and Xbox Live.

## System Link

With System Link play, you can connect two Xbox® consoles that are physically linked with an Xbox System Link cable, or up to 16 Xbox consoles using an Ethernet hub and standard Ethernet cables plugged into a 10Base-T or 100Base-TX network. For more information on how to do this, see your Xbox Instruction Manual.

## Limited Warranty For Your Copy of Xbox Game Software ("Game") Acquired in the United States or Canada

### Warranty

Microsoft Corporation ("Microsoft") warrants to you, the original purchaser of the Game, that this Game will perform substantially as described in the accompanying manual for a period of 90 days from the date of first purchase. If you discover a problem with the Game covered by this warranty within the 90-day period, your retailer will repair or replace the Game at its option, free of charge, according to the process identified below. This limited warranty: (a) does not apply if the Game is used in a business or for a commercial purpose; and (b) is void if any difficulties with the Game are related to accident, abuse, virus or misapplication.

### Returns within 90-day period

Warranty claims should be made to your retailer. Return the Game to your retailer along with a copy of the original sales receipt and an explanation of the difficulty you are experiencing with the Game. At its option, the retailer will either repair or replace the Game. Any replacement Game will be warranted for the remainder of the original warranty period or 30 days from receipt, whichever is longer. If for any reason the Game cannot be repaired or replaced, you will be entitled to receive your direct (but no other) damages incurred in reasonable reliance but only up to the amount of the price you paid for the Game. The foregoing (repair, replacement or limited damages) is your exclusive remedy.

### Limitations

This limited warranty is in place of all other express or statutory warranties, conditions or duties and no others of any nature are made or shall be binding on Microsoft, its retailers or suppliers. Any implied warranties applicable to this Game or the media in which it is contained are limited to the 90-day period described above. TO THE FULL EXTENT ALLOWED BY LAW, NEITHER MICROSOFT, ITS RETAILERS OR SUPPLIERS ARE LIABLE FOR ANY SPECIAL, INCIDENTAL, PUNITIVE, INDIRECT OR CONSEQUENTIAL DAMAGES ARISING FROM THE POSSESSION, USE OR MALFUNCTION OF THIS GAME. THE FOREGOING APPLIES EVEN IF ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. Some states/jurisdictions do not allow limitations as to how long an implied warranty lasts and/or exclusions or limitations of incidental or consequential damages so the above limitations and/or exclusions of liability may not apply to you. This limited warranty gives you specific rights, and you may also have other rights that vary from state/jurisdiction to state/jurisdiction.
